

TABLE OF CONTENTS • VILLAGE ECODYNAMICS PROJECT

Chapter 1: Introduction to the Village Ecodynamics Project

1. What is the Village Ecodynamics Project?

Researchers: Dr. Mark Varien, Dr. Tim Kohler, Dr. Scott Ortman, Dr. Donna Glowacki

2. Where are the VEP study areas located?

Researchers: Dr. Mark Varien, Dr. Tim Kohler

3. Who are the people studied by the VEP?

Researchers: Dr. Mark Varien, Dr. Scott Ortman

4. What are the goals of VEP research?

Researchers: Dr. Mark Varien, Dr. Tim Kohler, Stefani Crabtree, Dr. Scott Ortman, Dr. Kyle Bocinsky

5. What research questions does the VEP ask?

Researchers: Dr. Tim Kohler

6. What kinds of studies were conducted by the VEP?

Researchers: Dr. Tim Kohler, Dr. Kyle Bocinsky, Dr. Ziad Kobti

Chapter 2: How did the VEP study the past?

1. What is a computer simulation?

Researchers: Dr. Kyle Bocinsky, Dr. Ziad Kobti, Dr. Tim Kohler

2. How did the VEP use computer simulation to study the past?

Researchers: Dr. Tim Kohler, Stefani Crabtree, Dr. Ziad Kobti

3. How did the VEP reconstruct past environments?

Researchers: Dr. Tim Kohler, Dr. Kyle Bocinsky, Stefani Crabtree

4. How did computer simulation reconstruct agricultural production?

Researchers: Dr. Tim Kohler, Dr. Kyle Bocinsky

5. How is computer simulation a new way of studying the past?

Researchers: Dr. Tim Kohler, Dr. Ziad Kobti, Dr. Kyle Bocinsky, Stefani Crabtree

6. What archaeological sites were analyzed by the VEP?

Researchers: Dr. Mark Varien, Dr. Scott Ortman

7. What are community centers?

Researchers: Dr. Mark Varien, Dr. Donna Glowacki, Dr. Scott Ortman

8. How were community centers studied?

Researchers: Dr. Mark Varien, Dr. Donna Glowacki

9. How were sites divided into time periods?

Researchers: Dr. Scott Ortman

10. How did the VEP estimate how many people lived at each site?

Researchers: Dr. Mark Varien, Dr. Scott Ortman, Dr. Mark Varien

Chapter 3: What did the VEP learn about the past?

- 1. Where did pueblo people get water and was there enough during droughts?**
Researchers: Dr. Mark Varien, Dr. Tim Kohler
- 2. Did Pueblo people deforest the Mesa Verde area and is this why they left?**
Researchers: Dr. Mark Varien, Dr. Tim Kohler
- 3. Was hunting important to Pueblo farmers?**
Researchers: Dr. Mark Varien, Dr. Tim Kohler
- 4. Were domesticated turkeys important to Pueblo people's survival?**
Researchers: Dr. Mark Varien, Dr. Kyle Bocinsky, Dr. Tim Kohler
- 5. Was food exchange important to Pueblo people's survival?**
Researchers: Dr. Tim Kohler, Dr. Ziad Kobti, Stefani Crabtree
- 6. Why and when did community centers, or villages, form?**
Researchers: Dr. Tim Kohler, Dr. Donna Glowacki, Dr. Scott Ortman, Dr. Tim Kohler
- 7. What did the VEP learn by reconstructing population size and how it changed over time?**
Researchers: Dr. Mark Varien, Dr. Scott Ortman
- 8. What did the VEP learn about long-term interaction between humans and their environment?**
Researchers: Dr. Kyle Bocinsky, Dr. Tim Kohler, Dr. Donna Glowacki
- 9. Did the drought at the end of the 1200s force the people to leave the Mesa Verde region?**
Researchers: Dr. Kyle Bocinsky, Dr. Tim Kohler

Chapter 4: What did the VEP learn about the relationship between ancestral and modern Pueblo people?

- 1. What is the connection between ancestral and modern Pueblo people?**
Researchers: Dr. Scott Ortman, Dr. Tim Kohler
- 2. What languages do modern Pueblo people speak?**
Researchers: Dr. Scott Ortman
- 3. What Pueblo language is spoken in the VEP South study area today?**
Researchers: Dr. Scott Ortman
- 4. How are the Kiwoa-Tanoan languages related?**
Researchers: Dr. Scott Ortman
- 5. What did the VEP learn by combining archaeology with the study of Pueblo languages?**
Researchers: Dr. Scott Ortman
- 6. What language did Pueblo people in the VEP North study area speak?**
Researchers: Dr. Scott Ortman
- 7. Do the VEP population reconstructions indicate that Pueblo people moved from the north to the south study areas?**
Researchers: Dr. Tim Kohler

8. Does physical anthropology indicate that Pueblo people moved from the north to the south study areas?

Researchers: Dr. Scott Ortman

9. Do Tewa oral traditions connect modern Tewa people to their ancestors?

Researchers: Dr. Scott Ortman

10. What continuities exist between ancestral and modern Pueblo cultures?

Researchers: Dr. Tim Kohler, Stefani Crabtree, Dr. Donna Glowacki

11. What changes occurred between ancestral and modern Pueblo cultures?

Researchers: Dr. Donna Glowacki, Dr. Scott Ortman, Dr. Tim Kohler

Chapter 5: What did the VEP learn that is relevant today?

1. How can archaeology help us understand our world today?

Researchers: Stefani Crabtree, Dr. Kyle Bocinsky, Dr. Tim Kohler

2. What did the VEP teach us about the effects of population growth?

Researchers: Dr. Tim Kohler

3. What did the VEP teach us about interactions with the environment?

Researchers: Dr. Scott Ortman, Dr. Kyle Bocinsky, Stefani Crabtree

4. How did climate change affect the economic organization of societies?

Researchers: Dr. Tim Kohler

5. What did the VEP teach us about social organization?

Researchers: Dr. Tim Kohler, Dr. Scott Ortman

6. What did the VEP teach us about conflict and warfare?

Researchers: Dr. Tim Kohler

7. Does the VEP help us understand the Neolithic Revolution?

Researchers: Dr. Tim Kohler, Dr. Scott Ortman, Dr. Mark Varien

RESEARCHERS

Dr. Tim Kohler, Ph.D.

Washington State University, Senior Principal Investigator

Dr. Mark Varien, Ph.D.

Crow Canyon Archaeological Center, Principal Investigator

Dr. Ziad Kobti, Ph.D.

University of Windsor, Principal Investigator

Dr. Scott Ortman, Ph.D.

University of Colorado Boulder, Project Scientist

Dr. Donna Glowacki, Ph.D.

University of Notre Dame, Project Scientist

Dr. Kyle Bocinsky, Ph.D.

Washington State University, Project Scientist

Stefani Crabtree, M.A.

Washington State University, Project Scientist
